

## Complete e-mail access from any Web Browser

Stay in touch wherever you are! Merak's Integrated Webmail allows you to read and send e-mail messages using any web browser using an "Outlook-like" interface. But you are not limited to just email functionality, you can also use GroupWare, Instant Messaging and Anti-Spam features. Special interfaces for PDA and WAP devices are also included.

## Email for Anybody, Anywhere

No matter where you are, you can probably find a Web terminal. Nowadays most Airports, Hotels and even Trade Shows have dedicated Web terminals, and Internet Cafes are to be found almost everywhere.

Simply by using a standard Internet Browser you can access your Email Account, keeping you in touch, and increasing your productivity.

## Anti-Spam control

Merak Integrated Webmail uses advanced Anti-Spam features to help protect you.

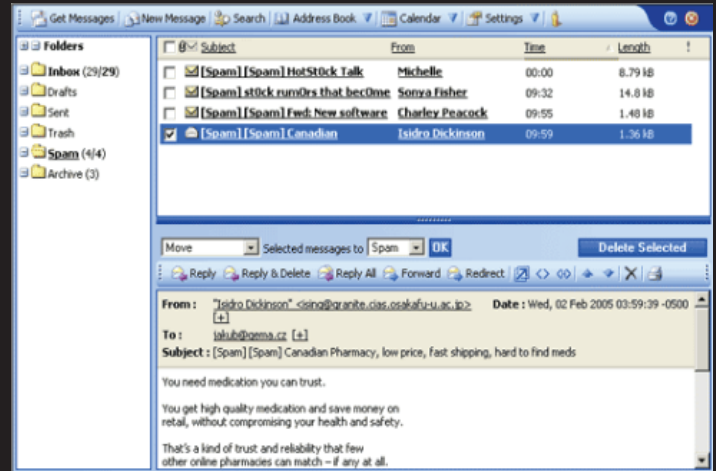

From within Webmail you can browse Spam messages, use the Challenge Response feature, set the spam detection level and edit the Server and Client Rules.

- \* Spam Folders
- \* Spam Level Detection
- \* Challenge Response mechanism
- \* Server and Client Rules
- \* Quick Black & White List

## High Security

Accessing the Webmail interface with a 128-bit SSL (Secure Socket Layer) connection ensures the safety of your email data and personal information. You can login with your username and password over a non-secure connection and your login credentials will be encrypted using the sophisticated SHA1 hash cipher.

- \* SSL (128-bit encryption)
- \* SHA1 Ciphered Login
- \* Word Challenge Protection

## Web Office Interface

Merak Integrated Webmail provides a rich interface comparable to desktop email clients.

Secure communication with access to GroupWare data, including shared Calendar Data, Contacts, Tasks, Notes and Instant Messaging, make the Webmail experience a simple and pleasant one.

- \* Global Address Book
- \* GroupWare & Calendar (Contacts, Tasks, Notes, Events)
- \* Instant Messaging

## Email Client features

Merak Integrated Webmail includes the following email client features.

- \* Multiple Accounts
- \* Multi-language Spellchecker
- \* Multiple Attachments
- \* HTML Messages
- \* S/MIME (Digital Certificates)
- \* Auto-Responder & email Forwarder
- \* Keyboard Shortcuts
